Chapter 264: The Recalibration of Power

After refining his mana-circles to perfection, Sung Jin-Woo revisited the power distribution of his clones. With the adjustments, all eleven main clones and the vast network of 1,100,000 secondary clones were recalibrated to operate with 0.0000000000000001% of his original body's power. Despite this seemingly minuscule fraction, their enhanced capabilities—fueled by the refined mana-circles—placed them leagues beyond their previous iterations.

---

1. The Power of the Clones

Each clone now wielded strength unmatched even by the highest known rank, S^{15}.

While their power exceeded the hypothetical S^{999999}-Rank immortals, no such beings existed within the known multiverse.

The clones' power stemmed from Sung Jin-Woo's mastery over mana-circles, the three hearts, and his innate godhood, ensuring they could dominate any battlefield or opponent.

---

2. The Eleven Main Clones

The main clones retained their strategic roles across the multiverse, ensuring Sung Jin-Woo's influence extended everywhere.

1. First Clone

Location: Abyss.

Purpose: Oversees the chaotic and mysterious depths, maintaining order and guarding against existential threats.

2. Second Clone

Location: Earth.

Purpose: Disguised as an S^{9}-Rank hunter, this clone protects Earth from threats while observing humanity's progress.

3. Third Clone

Location: Shadowverse.

Purpose: Governs the domain of the Shadowkins, guiding their growth and ensuring their loyalty.

4. Fourth Clone

Location: Shadow Abyss.

Purpose: Oversees the Shadow Lords’ domain, ensuring the stability of their vast armies.

5. Fifth Clone

Location: Sung Dynasty.

Purpose: Monitors and advises the dynasty’s rulers, ensuring their prosperity and adherence to the Divine Triad’s will.

6. Sixth Clone

Location: Domain of the Heavenly Soldiers.

Purpose: Manages the training and deployment of the Heavenly Soldiers, ensuring they remain an unstoppable force.

7. Seventh Clone

Location: Domain of the Dark Apostles.

Purpose: Oversees the dark forces, leveraging their abilities for covert operations and shadow-based warfare.

8. Eighth Clone

Location: Gladiator's Arenas.

Purpose: Participates in high-stakes battles, showcasing divine might and inspiring followers through victory.

9. Ninth Clone

Location: Umbra Citadel.

Purpose: Acts as the Guardian of Blessings, ensuring the flow of blessings to followers, priests, and worshippers.

10. Tenth Clone

Location: Umbra Citadel.

Purpose: Alternates duties with the Ninth Clone, maintaining an unbroken divine presence at the Citadel.

11. Eleventh Clone

Location: Domain of the Apostles of God.

Purpose: Guides and commands the Apostles, aligning their actions with the goals of the Divine Triad.

---

3. The Secondary Clones

The 1,100,000 secondary clones were distributed across the multiverse to handle operations on a broader scale. They served as:

Messengers: Relaying divine decrees and coordinating between realms.

Enforcers: Eliminating threats to the Divine Triad's dominion.

Advisors: Assisting rulers and leaders in various realms to ensure prosperity.

---

4. The Implications of Power Adjustment

The recalibration demonstrated Sung Jin-Woo’s unparalleled mastery over his own strength and resources. By reducing their power to 0.0000000000000001%, he achieved:

Efficiency: The clones became more energy-efficient, allowing them to operate indefinitely without draining his vast mana reserves.

Precision: Each clone’s power was finely tuned for its specific role, ensuring no waste of energy or potential.

Balance: Despite their incredible might, the clones’ power levels were carefully managed to avoid destabilizing the multiverse.

---

5. Sung Jin-Woo’s Ascension

With his enhanced mana-circles, Sung Jin-Woo continued to solidify his position as the Shadow God, surpassing all known limits of strength and divinity. His ability to manage such a vast network of clones, each with specialized roles, exemplified his unparalleled dominance and foresight.

Even as he delegated power and responsibility to his clones, his presence remained an unyielding force across the multiverse—a testament to the godhood he had ascended to and the infinite potential that lay ahead.
